2019-2020

## HOBBY AND INTERESTS

I was a professional ballroom dancer for 10 years, but after an injury, it became my hobby. Dancing taught me patience, hard work, composure, and the ability to achieve goals. I am interested in learning languages. I already have English and basic German in my arsenal, but I'm not going to stop there. Like many people, I could not resist the desire to travel. With dances, I traveled almost all over Ukraine and visited several cities in Europe. I lived in France for several weeks and visited Africa. And this is just the beginning. I am also fond of detective stories and design.
